Photographer Some cameras, like my Fuji X-Pro1 here, have a switch on the camera body that allows you to quickly switch from Continuous or Single AF to manual focus. Other cameras might have an option to change your AF mode to MF on one of the four way control buttons on the back of the camera. Usually it will be the left or up button. How to switch your camera to manual focus | Camera Jabber In a manual focus camera, movements to the lens ring adjust the angle of two mirrors. The two images this produces will eventually line up, bringing the scene into focus. Autofocus works on this same principle, however

instead of the user judging when the image is in focus, the camera uses an electronic sensor to do the same job.
