Word | Pages ... The Falkirk Wheel is the only fully rotating boat lift in the world. The wheel was built as part of the £85.4m Millennium link project to reunite the Forth and Clyde and Union Canals in Scotland. The canals had previously been linked by a staircase of 11 locks which took nearly a day to pass through. The locks were dismantled in 1933. Falkirk Wheel | Institution of Civil Engineers The goal of this engineering project is to design an implant that fits within the forearm of an average sized person to allow for the fingers to firmly grasp and move fluidly while grabbing an asymmetric object. The concept design will be used in patients who have experienced high median ulnar nerve palsy. Damage to these nerves reduces the function of
