External Document Definition External documents must be determined and surveilled. A QMS must determine what the relevant documents of external origin are. For example, an organization can use a register that, for each relevant document, can list: name of the document, issuer of the document, updated version and date, internal distribution (who inside the organization use the document), and responsibility for control (who inside the organization is responsible for controlling). ISO 9001 external documents control – what does it mean? external document. term applies to documents needed for the

company record keeping that has somehow been handled by outside individuals. Vendor invoices and cancelled checks are examples. The auditor can place much more reliance on external documents than internal document because of the greater independence and verifiability associated with them. external document | Barrons Dictionary | AllBusiness.com The method entails displaying (406) a local document from a local optical disc, transmitting (410) a request for an external document with a pointer to the local document to an external source, and displaying the external document having a navigation button associated with the local document pointer. external document - definition - English Giga-
