Harrington, I urge you to get a copy. of those courses where you can get by without reading the Econ 171 Game Theory is a powerful tool for predicting outcomes of a group of interacting firms where an action of a single firm directly affects the payoff of other participating players. Given that each firm functions as part of a complex web of interactions, any business decision or action taken by a firm impacts multiple entities that interact with or within that firm, and vice versa. Using Game Theory to Improve Strategic Decision Making ... Game theory, the study of strategic decision-making, brings together disparate disciplines such as mathematics, psychology, and philosophy. Game theory was invented by John von Neumann and
