South Lewis High School, Turin, New York 13473. Human Karyotyping Lab | FlipHTML5 A karyotype is a photograph of all of an organism's chromosomes. The chromosomes in the karyotype are arranged in homologous pairs according to size (largest to smallest). Homologous pairs can be determined by centromere placement, equal length of top and bottom arms as well as similar band placement on each arm. KARYOTYPING LAB - Moore Public Schools Questions: Answer the following questions before turning in your lab. 1. What four karyotypes did you choose to complete? 2. How could you determine if your karyotype was male or female? 3. Complete the following table: Karyotype #1
