evidenced by the fact that it is being used in over 15 countries across 5 continents. It is being implemented in top class international institutes as well as in poorly resourced schools in third world countries. VPLab | The Virtual Physics Laboratory Virtual Experiments have been recorded at Reading in physics and in other areas of science. Some examples are listed below. In the first section experiments most suitable for schools are listed, following this are experiments more suited to higher levels. The repertoire of VEs is constantly being increased. Virtual Experiments at Reading University The virtual labs have advanced machines and lab equipment such as compound microscopes complete with digital

Simulations | VPLab - VPLab | The Virtual Physics Laboratory This discovery lab lets students discover how to interpret position vs. time and velocity vs. time graphs by experimenting with the virtual motion detector. They simply drag the caterpillar, and they see the resulting graph as soon as they release the mouse button. Exploring Motion Graphs (Virtual Lab) Virtual Physical Science These simulations are great for qualitative explorations allowing students to discover fundamental principles, excite curiosity, and bring science to life. This virtual lab product combines all the laboratories from both Chemistry and Physics and is designed for general science courses. Beyond Labz - Virtual Labs,
