While modern books are born  
digital, books old enough to be in  
the public domain may never have  
seen a computer. Google has been  
scanning books from public libraries  
and other sources for several years.  
That means you've got access to an  
entire library of classic literature  
that you can read on the computer  
or on a variety of mobile devices  
and eBook readers.
