The following topics are thoroughly reviewed in this guide: ametropia; ophthalmic optics and spectacles; contact lenses; low vision; accommodative, vergence, and oculomotor anomalies; amblyopia, strabismus and color vision; perceptual anomalies; visual development. Berkeley Study Guide - UC Berkeley School of Optometry The Part I examination, entitled "Applied Basic Science" (ABS ®), tests the underlying basic science concepts necessary to enter the clinical practice of optometry. Most ABS items reference a clinical condition, either explicitly or implicitly. There are 350 scored items and 20 non-scored pre-test items on the ABS examination. Applied Basic Science - NBEO® 15 February, 2019. The

National Board of Examiners in Optometry (NBEO) is proud to announce registration is now open for its Laser and Surgical Procedures Examination (LSPE). The examination will consist of both a computer-based testing (CBT) portion and a clinical skills portion. National Board of Examiners in Optometry® - NBEO® I've made posts about NBEO part I in the past if you want to look at what I said. I'll just say, in hopes of reducing anxiety, that usually schools do very well to prepare you for part I. I can only remember one question on it that was not covered in lecture (it was interpreting results from a specific binocular vision technique that we never learned) and the others were all things encountered. NBEO Pt 1
