Workflow Cloud API allows you to connect your own applications to the Nintex Workflow Cloud, giving you access to the workflows, tasks and instance data in your tenant. Connect your application to documents in Box, tickets in Zendesk, records in Salesforce, Microsoft SharePoint lists and a host of other services. It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious.

.
