you T173 Engineering The Future -
clements.flowxd.me T173
Engineering the Future (T173: 30
points) - From design concepts to
the manufacture of products, this
course examines the range of
human activity that is
'engineering'. Courses - Open
University I did the precursor to it ,
T173 Engineering the Future!
Probalby my faovurite course I've
done with the OU. Not difficult and
really wide ranging and interesting.
The big complaint with it lots of
people had with it was that it was
dealing with relatively old
technology as examples. T174
Engineering the Future - The
Student Room It explores the
nature and purpose of engineering
by looking at examples of
engineering products and projects,

and of engineers at work, and provides an opportunity to think about your own experience and plans for the future. The resources needed for engineering are explored. T192 | Engineering: Origins, Methods, Context Category: Engineering & Technology » T173 - Engineering for the Future.
