

Togaf Solution Architecture

pdf free togaf solution architecture manual pdf pdf file

Togaf Solution Architecture The Solution Architect builds a solution to a given problem, with a given set of resources, in a given amount of time. But your organization already has a portfolio of systems, integration protocols and data contexts in place. The Solution Architect must also ensure that the given solution fits within these. What Is Solution Architecture - A Quick Guide The Open Group states that TOGAF is intended to: Ensure everyone speaks the same language Avoid lock-in to proprietary solutions by standardizing on open methods for enterprise architecture Save time and money, and utilize resources more effectively Achieve demonstrable ROI What is TOGAF? An enterprise architecture methodology for ... The Open Group Architecture Framework is a framework for enterprise architecture that provides an approach for designing, planning, implementing, and governing an enterprise information technology architecture. TOGAF is a high-level approach to design. It is typically modeled at four levels: Business, Application, Data, and Technology. It relies heavily on modularization, standardization, and already existing, proven technologies and products. TOGAF was developed starting 1995 by The Open Group, The Open Group Architecture Framework - Wikipedia The TOGAF framework has four primary architecture domains: business, data, application, and technology. Other domains may also be considered (e.g., security). 3.12 Architecture Framework A conceptual structure used to plan, develop, implement, govern, and sustain an architecture. The TOGAF

Standard, Version 9.2 - Definitions A "macro" vision of the architecture of the targeted solution is therefore presented, including links to the goals and requirements that the different elements of the solution must satisfy. In this example, the main focus is on the "TripReservationSite" application component, and on the "ReserveTrip" process application component. Solution concept diagrams - Togaf modeling TOGAF delivers an enterprise architecture, and therefore requires both business and IT-trained professionals to develop the enterprise architecture. The TOGAF Architecture Skills Framework provides a view of the competency levels for specific roles within the enterprise architecture team. Architecture Skills Framework Gartner (2013) A solution architecture (SA) is an architectural description of a specific solution. SAs combine guidance from different enterprise architecture viewpoints (business, information and technical), as well as from the enterprise solution architecture (ESA). Greefhorst and Proper (2013) An architecture of a solution, where a solution is a system that offers a coherent set of functionalities to its environment. Solution architecture - Wikipedia A Solution Architecture typically applies to a single project or project release, assisting in the translation of requirements into a solution vision, high level business and/or IT system specifications and a portfolio of implementation tasks. Enterprise Architecture, TOGAF and Solution Architects The TOGAF® Standard, a standard of The Open Group, is the open Enterprise Architecture standard used by the world's leading organizations to improve business efficiency. TOGAF®

Certification | The Open Group Phase G of the TOGAF ADM (see Part II: Architecture Development Method (ADM), Phase G: Implementation Governance) is dedicated to implementation governance, which concerns itself with the realization of the architecture through change projects. implementation governance is just one aspect of architecture governance, which covers the management and control of all aspects of the development and ... Architecture Governance - The Open Group Solution overviews (can be called conceptual architectures, solution outlines, conceptual designs, preliminary solution architectures, solution briefs, etc.) describe specific IT projects in a brief business-oriented manner, usually including their high-level architectures, expected business value, estimated costs, risks and timelines. Eight essential enterprise architecture artifacts | BCS ... TOGAF is an architecture framework - The Open Group Architecture Framework. TOGAF provides the methods and tools for assisting in the acceptance, production, use, and maintenance of an enterprise architecture.
