Times 'Erudite, enlightening and entertaining (...) a timely reminder of the fragility of our ecosystem and the vital role that insects play in the future of the planet and humanity's existence' Countryman 'Extraordinary Insects is packed with wondrous information. There are more than 200 million insects on Earth for every human being and anyone ... Extraordinary Insects: Weird. Wonderful. Indispensable ... There are approximately 30 recognized orders of insects, but this number changes as entomologists discover, classify, and reclassify current species. All insects belong to the Kingdom Animalia, the Phylum Arthropoda, and the Class Insecta, which is then divided into orders. Most insect order names end in ptera, which comes from the Greek word pteron, meaning wing. While each group has similarities, there are features that make an insect order distinct from the other orders.
